\$KONG

The era of Memes like Doge – Shib – Floki - Pepe.. had very memorable days. It's time for \$KONG to come to power as a King of Memes & make a new page in crypto history.

ABOUT KING KONG

The story of the giant KING KONG with extraordinary strength and intelligent mind from prehistory.

KING KONG is the mighty king of Skull Island - a mysterious island with creatures from prehistoric times. "KING KONG is the last of his kind/ He had a father, mother, and perhaps siblings. But all of them were dead. KING KONG is the last individual among giant monkeys living on Skull Island. There will be no more such creatures. It was an extremely lonely creature, completely alone. Every day that passes, he has to fight to survive against the ferocious dinosaurs on Skull Island, which is difficult for him. KING KONG bears the scars from those wars." No longer a beast, KING KONG has become a legend throughout its many years of history. KING KONG has become a symbol of the longing for an equal love. On the other hand, KING KONG is also one of the world's impressive cultural icons.

KING KONG'S LAUNCHING

Since then, the KING KONG project with the token \$KONG has been officially released on the Blockchain platform of Binance Smart Chain (BSC).

\$KONG will evolve into commercial transactions and enable P2P transactions without intermediaries and use to empower holders to build a leading decentralized community in the crypto economy, Metaverse, and games on Web 3.0.

KING KONG [\$KONG] is also a decentralized autonomous project of DAO. Future strategies are all operated by the community through a voting system for token holders.

WHY **\$KONG** ON BSC?

\$KONG runs on the network BSC brings a high-speed network, Fork from Ethereum itself, so the stability is great.

Transaction fees are very cheap, averaging ~ \$0.1/per transaction compared to tens of \$ on Ethereum's network, which makes BSC a platform with the most competitive fees.

BSC ecosystem is the largest of the platforms currently, it includes all the projects that dominate the Crypto market such as Defi, Stablecoin, Dao, Web3, Metaverse. Therefore it will be very easy to convert tokens with together.

Great support from the Binance centralized exchange the world's largest exchange by transaction value.

BSC team is always working hard to optimize the network.
